George Soros Says Trump Administration Is 'Danger to the World'
Bloomberg
George Soros said President Donald Trump is risking a nuclear war with North Korea and predicts that the groundswell of opposition he's generated will be his downfall. "I consider the Trump administration a danger to the world," the billionaire investor said in a speech from Davos, Switzerland.

George Soros, nemesis of dictators and grandees, lets rip in Davos
BizNews

DAVOS — Among my personal highlights of the Davos week is attending **George Soros's** annual dinner where the investor-turned-philanthropist shares his views on the world. Now 87, the hour long speech can seem a little ponderous and requires disciplined focus but the quality of his content remains ...

George Soros at WEF warns of nuclear war
ValueWalk

Facebook and Google effectively control over half of all Internet advertising revenue to maintain their dominance. They must expand their networks and increase their share of the users attention. Currently they do this by providing users with a convenient platform the more time users spend on the ...
